

# OLIVEHURST PUBLIC UTILITY DISTRICT MEMORANDUM

DATE : July 30, 2021

TO : John Tillotson, General Manager

FROM: Greg Axline, Chief Plant Operator

RE: **Monthly Report of Activities for Board meeting on 8/19/2021**

---

- For the month of July the Wastewater Treatment Facility had no exceedances of its N.P.D.E.S. permit.
- Plant Staff cleaned the filter panels and on the UV system to keep both systems running efficiently.
- Rio Del Oro Lift station; Staff has been checking all equipment at the Rio Del Oro lift station on a regular basis. The blower unit on the mini phoenix has been taken off line to be worked on and will be back up and running soon.
- Staff has had to hold off on putting work into looking for I&I problems with the collection system because of staff shortage and District inspection work load.
- We expect to hire a replacement Collections worker soon.
- It was determined that the Wastewater Treatment Plant's alarm system with Bay Alarm was canceled after a theft of some tools from the District's Crane truck was discovered. Bay Alarm was called and asked why the cameras didn't pick up the theft. Their response was that the system was canceled a month prior. Staff is looking into a new alarm company for a new system.
- Estimated Plant processed for the month of June was 37.57 MG.
