

Olivehurst Public Utility District

Agenda Item Staff Report

Meeting Date: October 15, 2026

Item description/summary:

Originally for the FY 2026/2027 budget, the Wastewater Department planned on buying either a used or new Service Truck to replace the Ford F450 that broke down last year. We took the Ford F450 to Geweke and they quoted us \$13,733.49 to replace the engine and get the truck operating again. This also comes with a 3-year/unlimited mile warranty.

Staff would like to move forward with replacing the engine in the Ford F450 and hold off on purchasing a new or used Service Truck until 2030 or later.

The quote from Geweke is attached. Since it is below \$15,000 for parts and labor it does not meet the requirements to go out to bid.

Fiscal Analysis:

By buying a new engine and having it installed vs. purchasing a new or used Service Truck we are saving money from the Capital Outlay Budget.

Employee Feedback

Pleased to get another large truck back in service that can tow large equipment around the district as needed.

Sample Motion:

As recommended for approval during the Waste Water committee meeting, I request that the board approve the General Manager to move forward with the quote provided by Geweke for the F450 engine replacement.

Prepared by:

Nicholas Pomeroy – Chief Plant Operator (Waste Water)
