The exclusive rights of the District shall include, but not be limited to, the right to determine the organization of District governance and the purpose and mission of its constituent agencies; to set standards and levels of service to be offered to the public, and through its management officials, to exercise control and discretion over its organization and operations; to establish and enforce administrative regulations and work rules in addition to and not inconsistent with the specific provisions of this Memorandum of Understanding; to direct its employees; to take disciplinary action; to lay off its employees; to determine the procedures and standards of selection for employment and promotions; to determine whether goods or services shall be purchased or contracted for; to determine the methods, means and personnel by which the District's services are to be provided, purchased or contracted including the right to schedule and assign work and overtime; and to otherwise act in the interest of efficient service to the District and the public.
