

Olivehurst Public Utility District

Agenda Item Staff Report

Meeting Date: 06/17/2021

Item description/summary:

Discuss adding pickleball courts to existing or future parks in the District

During last committee, staff was asked to look into pricing for adding pickleball courts to parks in the District. Typically, pickleball courts are installed in four's since four pickleball courts can fit into a single tennis court. From some searches online, it looks like each court costs around \$25,000 for a total of \$100,000 for all four.

During community park design, there was some talk on putting pickleball courts along with the tennis courts in the plan, but there wasn't much community interest at the time when feedback was collected.
