Please see responses to more questions below.

1. Is there any available geotechnical information for the project area?  
**No geotechnical surveys have been done on the project area.**
2. Will the selected consultant be provided any District system maps and/or as-builts plans of the District's existing facilities?  
**The selected consultant will have access to any District maps or as-builts we have on hand. Please keep in mind that the District may not have as-builts for all parts of the project area.**
