SECTION 00 40 25

SCHEDULE OF MAJOR EQUIPMENT AND MATERIAL SUPPLIERS

(To Be Submitted with Bid)

1. The undersigned Bidder represents that, if awarded the Contract, the items of major equipment and materials specified below will be supplied by the manufacturers or suppliers specified below. By so indicating, Bidder warrants that the equipment and materials manufactured and/or supplied by the named manufacturer or supplier will be provided on the Project unless review of submittal information or performance tests reveal that the equipment or material does not meet Contract requirements or the manufacturer or supplier is unable to meet the delivery requirements necessary to maintain progress of the Project based upon the accepted baseline construction schedule. Failure to indicate a manufacturer or supplier listed in the following schedule may render the Bid non-responsive and may be the basis for rejection of the Bid.
2. All major Equipment shall be bid according to the following:
 - (a) The following Major Equipment Schedule Table designates major equipment items to be provided. All costs for providing these equipment items shall be included in the Lump Sum Bid. The Bidder shall indicate which Manufacturer/Supplier of equipment he proposes to provide, by checking ONE of the named, listed items and, if the Bidder desires to propose an "or equal" equipment item, by writing in a proposed "or equal." If the Bidder writes in a proposed "or equal," he shall also check one of the named, listed items. It is the Bidder's responsibility that all equipment to be provided, either checked or proposed "or equal" write-in, meet the requirements of the Specifications.
 - (b) The opinion of the Engineer will be the final determination of whether a write-in "or-equal" meets the design intent. In the event that the Engineer allows the Bidder's proposed "or equal" material or equipment item for use as an "or equal", the proposed "or equal" material or equipment item shall be provided for the amount included in the Lump Sum Bid with NO change in Contract price. Should the write-in proposed "or equal" item be determined "not equal" by the Engineer, then the Bidder hereby agrees to provide the checked Manufacturer/Supplier item for the amount included in his Lump Sum Bid. Should a Bidder fail to indicate which named manufacturer or supplier his Lump Sum Bid is based on, or checks more than one named Manufacturer/Supplier per listed equipment item, the Bidder hereby agrees to provide the Manufacturer/Supplier item noted as "A" for the amount included in his Lump Sum Bid with NO change in Contract Price.
 - (c) Allowances of proposed "or equal" equipment does not constitute a waiver of the Specifications. Proposed "or equal" equipment is defined as equipment proposed and named by the Bidder under the Manufacturer/Supplier column in the Major Equipment Schedule Table as equal and equivalent to the specified equipment.
 - (d) Proposed "or equal" equipment will only be considered after award and execution of contract. For each "or equal" (write-in) equipment item, Contractor shall submit a properly completed, MATERIAL / PRODUCT SUBSTITUTION REQUEST FORM. See Section 01 60 00, Project Requirements and Substitutions, within thirty-five (35) calendar days after the date of the Notice to Proceed. Proposed "Or Equal" Substitution Form must be completely filled out, certified and include all required supporting documentation to allow Engineer to assess the "or equal" acceptability of the product or system. Failure to submit all the required information within the established time limit shall be grounds for determination that the proposed "or equal" major equipment item is "not equal" to the named, listed Manufacturer/Supplier equipment item.

Name of Bidder: RCI GENERAL ENGINEERING

(e) Within thirty (30) calendar days after receiving the proposed "or equal" major equipment submittals, the Engineer will notify Contractor, in writing, as to whether or not the submitted proposed "or equal" equipment, if any, are accepted as meeting the general specification requirements. The consideration of this equipment shall not be construed to indicate final acceptance by the City, nor relieve the Contractor and/or Manufacturer/Supplier of the equipment from providing the post-Contract award submittal information.

(f) To be deemed equal, the proposed "or equal" equipment shall be the same or better than the specified named product with respect to features, materials of construction, function, performance, reliability, quality, general dimensional configuration, operations and maintenance access and costs, and static and dynamic loads. Determination of equality in reference to the project design requirements will be made by the Engineer.

(g) No proposed "or equal" major equipment will be considered unless, in the opinion of the Engineer, it conforms to the Contract Drawings and Specifications in all respects, except for make and manufacturer and minor details.

(h) Design of this project is based upon the Manufacturer/Supplier equipment item noted as the "A" item in the Major Equipment Schedule Table. When a "B," "C," or "D" named item is named in the Major Equipment Schedule Table, the equipment or product of this "B," "C," or "D" named manufacturer or supplier is deemed "or equal" in quality; however, should a Bidder propose providing a "B," "C," or "D" named item, or proposed "or equal" (write-in) equipment, he shall comply with the following:

1) If the Bidder proposes "or equal" (write-in) equipment or equipment other than an "A" named manufacturer, he shall include in the Lump Sum Bid all additional costs (including all general construction, process mechanical, HVAC, plumbing, electrical, and instrumentation and control work), required to accommodate, furnish, and install the proposed equipment or material, training, and spare parts.

(2) Contractor shall reimburse the District for Engineer's time and expense charges associated with the review of proposed "or equal" Major Equipment or System submittals, subsequent notification to Contractor of disposition, and any associated modifications to the Drawings.
