

General Manager Report of Activities for October/November 2019

November 27, 2019

Project	Progress This Period
Building Permits	We have had 35 since the beginning of November 2019.
Annexation – Sports, Entertainment and Industrial	Based on rough numbers it is clear that the McGowan Pkwy route for the sewer is the most feasible. The application has been submitted to LAFCO for annexation. LAFCO is having the official hearing for the annexation Wednesday evening (12/11) at 6:00 PM.
Casino	The Hard Rock casino/hotel is open as of today. We have billed the tribe for the true-up process.
Ad-Hoc Committees	Provided staff support to several OPUD Ad-Hoc committees.
IRWMP Grants	We continue to attend the meetings and the group adopted the plan (Integrated Regional Water Management Plan) which will be submitted to DWR. Once approved by DWR, our Board will need to adopt the plan to receive grant funding from the state. We will have a few projects we'd like to submit: steel main replacement, water meter project and intertie with Linda County Water. The consultant will meet with OPUD staff to talk about grant opportunities soon. The state funding for this grant for our area has decreased significantly. We may have to phase the steel main replacement project. We received a \$1.4M grant from YWA for a match.
Parks Grants	Grant applications were submitted on time and now we wait until early next year to find out if we will be awarded a grant.
OPUD Pool	Pool season was another success with record attendance. I met with First 5 and they want to extend the current contract one year so we are in-cycle with their strategic plan.
Community Park	One of the grants we applied for is for this park. The preparation of the RFP for design has started with our parks consultant.
