Olivehurst Public Utility District

Agenda Item Staff Report

Meeting Date: April 21, 2022

Item description/summary:

**Using monies from Vehicle replacement:** There is $30,000 allotted for Vehicle replacement in the budget for replacing one of the collection vehicles. Staff would like to hold off till next budget for that purchase because wastewater's Mule “ATV” for using in the Plant broke down and is not worth the cost of fixing. So Staff would like to purchase an electric Utility Truck. It is a new Taylor Dunn BF electric Flatbed Vehicle made by Toyota.

Fiscal Analysis:

This would not have impact on the budget because the funds are already there. And the purchase would be through Sourcewell member pricing so there would be no reason to go out to BID.

Employee Feedback

Employee feedback is very positive.

Sample Motion:

Move to approve the purchasing of a Taylor Dunn BF electric Flatbed Vehicle from vehicle replacement budget line item.

Prepared by:

Greg Axline CPO WWTF
