

## **Proposed Use of Olivehurst Youth Center and Olivehurst Community Park**

Dear OPUD Committee and Board,

My name is Brian, I am married to my wife Gina, we have four children ages 11, 8, 5, and 20 months old. We currently live in Yuba City. We hope to move to Olivehurst sometime in the future.

For over a year and a half now we have been praying and planning to start a new church in Olivehurst. During our discovery phase of looking for places to begin meeting in, we came across Olivehurst Community Park, which led to looking at the youth center. We have thought of other places but none of them say community like OCP and the youth center. We believe this would be a great starting place.

### **Olivehurst Youth Center**

Our desire is to hold small meetings in the youth center. Please keep in mind this is the beginning of this new work. We don't have a group yet and really would love to connect with the community through personal invite to some small get togethers.

The gathering would consist of worship music and a Bible study along with sharing our vision of the church along with a time to connect over coffee.

Our thoughts on the use of the youth center would be, weekly. Perhaps Sundays, if available.

### **Olivehurst Community Park**

We see a park as being a place for families and children to enjoy food and fun. Parks naturally create and communicate, community. Our thoughts are to hold a once a month free BBQ at the park. This would consist of food and some games for the kids. The idea is to create a comfortable community engagement, a place to connect.

Thank you for your time and I look forward to chatting with you soon.

Sincerely,

Brian R. Diehl
