

# Olivehurst Public Utility District

## Agenda Item Staff Report

**Meeting Date: February 15, 2024**

**Item description/summary:**

Replacing Collections Sewer Inspection Camera: The sewer inspection camera the wastewater department is using now is obsolete and parts are getting harder to find. It has had to be repaired at least 3 - 4 times in the last 10 years costing around \$3,000 - \$5,000 each time to fix it. The recording devices in the van do not work properly and have been pieced together never correctly.

**Fiscal Analysis:**

We have received a quote of \$152,731.16 to retrofit the van to accommodate the installation of a new camera.

**Sample Motion/Staff Recommendation:**

Move to approve the purchase of a sewer inspection camera in accordance with OPUD purchasing policy.
