# 1. Introduction

## Background

The Plumas Lake Community Facilities District No. 2002-1 (CFD or District) was formed by the Olivehurst Public Utilities District (District) in September 2002. The boundaries of the CFD include the following approved subdivision maps:

- Rio Del Oro
- Riverside Meadows
- Woodside
- Creekside
- River Oaks East
- River Oaks North

The above-referenced subdivisions were originally approved for 3,184 single-family residential lots. Final maps have been recorded and tentative maps have been revised, resulting in current estimated total residential units of 3,268.

The CFD is authorized to issue up to \$27.0 million in CFD bond debt to fund the acquisition or construction of water, sewer, and park facilities to be owned and operated by the District. The District issued \$7.91 million in CFD bond debt in 2005 to partially acquire approximately \$19.0 million in facilities that have been constructed by developers owning land in the CFD to date. Series 2008 bonds were issued in the par amount of \$3.235 million to fund authorized facilities of the CFD.

The Series 2005 and Series 2008 bonds were refunded in July 2018. The new principal bond issuance of \$7,704,900 fully refunded the outstanding bonds of the CFD. Under the Fiscal Agent Agreement of the Series 2018 bonds, a requirement that all taxable parcels classified as other than Undeveloped Parcels be levied the maximum annual special tax was removed.

As of the Fiscal Year (FY) 2024-25 Tax Report, all developer obligations have been fully funded with CFD bond proceeds and special tax proceeds under the Pay-As-You-Go program. Beginning with the FY 2018-19 special tax levy, the CFD will be required to fund debt service, administrative costs of the CFD, and other authorized costs of the CFD.

## CFD Funding Program History

Developers in the CFD had anticipated that the District would issue approximately \$23.0 million in CFD bonds to acquire the approximately \$19.0 million in facilities constructed. To issue this many bonds, the District would have to levy a special tax against undeveloped parcels. In 2003, the District learned that levees protecting the land in the CFD provided less than 100-year flood protection. As a result, concerns about

the flood threat made issuing debt against undeveloped parcels difficult in the market and caused the District to limit any debt issuance to an amount that could be secured by parcels with a building permit for residential uses. Therefore, only \$11.145 million in CFD bonds were originally issued to fund CFD projects. The original CFD bonds were refunded in 2018.

The special tax was first levied in FY 2004-05 in anticipation that CFD bonds would be issued during that fiscal year. The special tax has been levied in each fiscal year since FY 2004-05.

## Organization of this Report

This report serves as the Annual Tax Report required by the Mello-Roos Act. This report discusses parcels included in the CFD, the calculation of annual costs, and the allocation of the special tax to parcels. **Chapter 2** discusses land uses in the CFD and discusses the assignment of the maximum annual special tax. **Chapter 3** discusses the calculation of the FY 2024-25 tax levy.

There is one appendix attached to the report. **Appendix A** contains the list of all CFD parcels and the amount of Special Tax levy for FY 2024-25.

## 2. CFD Land Uses and Assignment of the Maximum Annual Special Tax

### CFD Land Uses

The CFD was formed originally with planned residential units numbering 3,184. The Special Tax Formula allows the number of planned residential units to be increased as a result of revised tentative maps or additional residential units being created at the recordation of a final map. Current tentative maps and recorded final maps identify 3,268 planned residential units. Residential units are first allocated to tentative map parcels by identifying the estimated number of planned residential units that would be located on the Assessor's Parcel Number classified as a tentative map parcel. When a large lot parcel is created identifying specific land uses within a subdivision, planned residential units are further allocated to new Assessor's Parcel Numbers. Once a final map is recorded, each final map lot is assigned a residential unit, and any remaining planned residential units are assigned to remaining large lot parcels that have yet to be subdivided.

**Table 1** shows that of the 3,268 assigned residential units, 2,971 are classified as "developed" parcels, or parcels with a final map for single-family residential uses. Each of these parcels is assigned a residential unit. The remaining 297 Planned Residential Units are assigned to 3 Large Lot Parcels.

## **Subdivisions Creating New Taxable Parcels for FY 2024-25**

One final map was recorded during FY 2023-24, creating new “developed” parcels for FY 2024-25. A final map was recorded for Riverside Meadows Village 4. In total, 90 “developed” parcels were added for FY 2024-25.

## **Reallocation of Planned Residential Units**

No Planned Residential Units were reallocated to taxable parcels for FY 2024-25.

## **Assignment of the Maximum Annual Special Tax to Taxable Parcels**

Under the Special Tax Formula, Planned Residential Units are assigned to Taxable Parcels, and then a Maximum Annual Special Tax per Unit is assigned to each Planned Residential Unit. The Maximum Annual Special Tax per Planned Residential Unit is \$600 and is not increased by an escalation factor annually.

## 3. Calculation of FY 2024-25 Special Tax Levy

### Compute the Annual Costs of the CFD

The Annual Costs for the CFD are the total dollar amount of expenditure items that must be funded in FY 2024-25. The Annual Costs for FY 2024-25 are \$628,427.83, as shown in **Table 2**. Annual Costs consist of the following items:

1. Annual debt service requirement.
2. Administrative expenses.
3. The amount needed to replenish the reserve fund for the bonds to the level required under the Bond Indenture.
4. Any amounts needed to cure actual or projected delinquencies in collecting the special tax.
5. Pay-As-You-Go Expenditures (if any).

#### Annual Debt Service Requirement

The amount of principal and interest payments to be paid in March and September 2025 are the amounts required to be funded from the special tax levy for FY 2024-25. **Table 4** shows the annual debt service requirement in all fiscal years in which bonds are outstanding. The Series 2018 Refunding Bonds have estimated interest payments in the amount of \$118,668 due in March and September 2025. A principal payment in the amount of \$340,900 for Series 2018 Refunding Bonds is due in September 2025.

#### Administrative Expenses

The District may levy special taxes to cover administrative expenses associated with the costs of administering the CFD. Administrative costs consist of, but are not limited to, District staff costs, tax administrator costs, fiscal agent fees, and County special tax collection fees. Total administrative expenses of the CFD are estimated to be \$45,000 for FY 2024-25.

#### Replenishment of Reserve Fund and Special Tax Delinquencies

The reserve fund was not depleted to fund annual debt service costs in FY 2023-24. Special delinquencies as of the date of this report were 0.83 percent of the FY 2023-24 levy of \$628,980. As a result, a contingency amount of 0.83 percent for uncollected special taxes is reserved in **Table 2** to fund current delinquencies. **Table 3** shows the current fiscal year delinquency rate and historical delinquency rates.

[2] Annual costs include anticipated special tax delinquencies from the previous and current fiscal year may be included in calculation of annual costs. The delinquency rate as of **May 16, 2024** is 0.83%. Therefore, 0.83% of the annual levy is budgeted to cover prior year special tax delinquencies.

## Compute the Special Tax Levy for FY 2024-25

The Special Tax Formula stipulates that the administrator shall levy the special tax proportionally on Developed Parcels up to an amount equal to annual costs shown in **Table 2** or up to the maximum annual special tax for such parcels first. If there are insufficient special tax revenues derived by levying the special tax on Developed Parcels at the maximum amount, Large Lot Parcels, and then Tentative Map Parcels shall be levied.

Annual costs are \$628,427.83. The maximum annual special tax revenue for all Developed Parcels is \$1,782,600 (as shown in **Table 5**) for FY 2024-25. Annual costs are approximately 35 percent of the maximum annual special tax revenue for all Developed Parcels. Therefore, the special tax for Developed Parcels shall be levied at 35.25 percent of the maximum annual special tax for all Developed Parcels for FY 2024-25.

There shall be no special tax levy for Large Lot Parcel, Tentative Map Parcels, or Undeveloped Parcels for FY 2024-25.

## Amount of Special Taxes to Be Levied in FY 2024-25

**Appendix A** shows the amount of special tax to be levied for each taxable parcel in FY 2024-25. The amount to be levied on each Developed Parcel is equal to 35.25 percent of the maximum annual special tax that may be levied for a parcel in this tax category. **Table 6** shows the maximum annual special tax per planned unit of \$211.52 for each Developed Parcel.

[1] The Maximum Annuals Special Tax per Unit was established as \$600 and does not increase by a tax escalation factor annually.

[2] The RMA stipulates that Developed Parcels are levied up to 100-percent of the Maximum Annual Special Tax until the levy is equal to annual costs, prior to levying a special tax on Large Lot Parcels, and Tentative Map Parcels. Annual Costs are approximately 35-percent of the Maximum Annual Special Tax for Developed Parcels for FY 2024-25.
